INGRESS/EGRESS PLAN

BALLOON FIESTA PARK

DECEMBER 6, 2019

GENERAL INFORMATION

During this year's event, members of the Bernalillo County Sheriff's Department Metropolitan Air Support Unit (MASU) will be handling the ingress and egress of participating helicopters. We will be utilizing three portions of the Balloon Fiesta field. Each landing zone will have a marshal assigned to it. Below you will find maps showing the three areas along with the recommended time frames and frequency guide.

INGRESS TIME FRAME

- | | |
|---------------------------|------------------------------|
| Block 1: 0600-0630 | Night landing |
| Block 2: 0630-0700 | Dawn landing |
| Block 3: 0700-0730 | Day light |
| Block 4: 0730-0800 | During scheduled social time |

The above blocks are recommended arrival times. Sunrise is scheduled for 0701 hours. For those choosing a low to no light landing, ground crews will utilize beacons or wands to mark your landing zone.

Please Email Charles Tuberville at cdtuberville@bernco.gov if you wish to schedule a specific landing time.

COMMUNICATIONS

Radio Frequencies:

Albuquerque Approach Control	127.40 or 123.90
Double Eagle Tower	120.15
Helicopter Air to Air	123.025

ARRIVAL PROCEDURE

Once the arriving aircraft enter Class C and surrounding airspace, pilots are responsible for position reports and to de-conflict with other aircraft on the above frequencies.

We have been requested not to fly over the neighborhood to the west of Balloon Fiesta Park for noise concerns.

The lowest aircraft will be given priority. Traffic separation is the responsibility of the pilot and we encourage a minimum of 500ft vertical separation and standard right hand orbits in the identified holding area.

Bob Martin Helicopter Safety Day | 2019

At approximately 3 miles from the Balloon Fiesta Park contact ground crews on Helicopter Air to Air. Please identify yourself and position. Ground crews will direct you to either your landing zone or to the holding area.

DEPARTURE PROCEDURE

There is no set order of departure and assistance will be given by ground personnel on an 'as needed' or requested basis.

MASU CONTACT INFORMATION

Sergeant Trevor B. Weeks tweeks@bernco.gov 505-218-1287

Deputy Chuck Tuberville Cdtuberville@bernco.gov 505-459-9174

IN CASE OF EMERGENCY

BCFD personnel will be on site, also BCFD station 31 will be on standby for the event.
